I like the current order. I would like to submit my own brief as Grand Canyon Trust has struck previous deals with Intervenorors. Historically, Sierra Club allowed Navajo Generating Station (NGS) to be built, but reverses its position after the fact.

Paul Spruhan is involved in an illegal take over the Navajo Government, better to get the briefs in early. Earlier the better.

Oppose the motion.

Dan,

Given the time constraints we are under with the holidays, on behalf of all of the intervenors, you can represent in your motion that "each of the Intervenorors reserves its position on the motion at this time and reserves the right to file a response to the motion."

Happy holidays.

All – as I informed all of the petitioners on Monday, the United States and the Hopi Tribe are filing a motion requesting three items: a briefing schedule beginning on March 16; a period of 60 days between petitioners' briefs and the United States' brief, regardless of when petitioners' briefs are filed; and a briefing format requiring petitioners in Nos. 14-73101 and 14-73102 to file a joint brief. Attached is a draft motion; please let me know your position today (Janette and Amanda, please let me know if you still oppose all three of these requests).

- Dan
